

Contract Award by The Treasury Board Secretariat (TBS) of Canada and the Royal Canadian Mounted Police (RCMP) builds on more than 20 years of service to the Government of Canada.

Brookfield Global Relocation Services is pleased to announce that it has been awarded a five-year contract for the administration and financial management of relocation services for the Canadian federal public service and for Third-Party Service Provider management to the Members of the RCMP.

“We are thrilled to continue delivering services to The Treasury Board Secretariat of Canada and to the Royal Canadian Mounted Police,” stated Michel Bonin, Senior Vice President of Canadian Government Services for Brookfield GRS. “As a Canadian owned and operated company, we have the strongest expertise, proven track record, and most experienced team to continue delivering these important relocation services at the lowest cost to our fellow Canadians.”

The contract includes volumes of more than 2,500 annual relocations and responsibility for managing thousands of third-party suppliers. Brookfield Global Relocation Services will provide advisory services including information about relocation benefits, relocation planning; deliver financial claims processing support; and provide on-going maintenance of a directory of third-party service providers (including REALTORS®, lawyers/notaries, home inspectors, appraisers and rental search agencies). All services will be delivered in both of Canada’s official languages.

Brookfield Global Relocation Services has been providing relocation services to the Canadian Government since 1994.
